

Introducing Valuta ... "Design Your Recycling"

Valuta Product Overview

Internal bag-holding system standard on all Valuta models

Sample Valuta Configurations

Optional liner for 40 gallon body

Designed by QDesign, Valuta is a versatile family of modular waste and recycling receptacles. Constructed of heavy-gauge steel, Valuta offers two body sizes [20 & 40 gallon capacity units], each of which is available with 3 pivoting top options and selectable icon/references for easy sorting and disposal of waste, paper, cans and bottles. Valuta comes in a variety of powder coat colors. All Valuta models come standard with an internal bag-holding system for secure bag-holding and quick bag-changing, and are also available with optional rigid plastic liners. Made in the USA.

40 gallon body
Model VA1818

20 gallon body
Model VA1809
